INFORMATION TECHNOLOGY PROFESSIONAL

Experienced and detail-oriented Freelance Web Developer and Data Analyst with a strong foundation in designing, developing, and maintaining user-friendly websites and web applications, as well as analyzing and interpreting complex data sets. Proficient in a variety of programming languages, frameworks, data analysis tools, and techniques, with a focus on creating responsive, performance-optimized solutions and providing actionable insights through data analysis. Skilled in problem-solving, project management, and communication, consistently delivering high-quality results within deadlines. Passionate about staying up-to-date with the latest web development and data analysis trends and technologies to ensure the best outcomes for clients.

KEY COMPETENCIES

Problem-Solving	Project Management	Creativity & Innovation
Critical Thinking	Effective Communication	Continuous Learning & Adaptability
Attention to Detail	Client Interaction	Analytical & Logical Thinking
Time Management	Requirement Gathering	

PROFESSIONAL EXPERIENCE

YNGEN Datacom Corp   **June 2024 - Jan 2025**
Technical Analyst

Analyze and evaluate the technical aspects of projects, systems, and solutions to ensure alignment with business goals, technical requirements, and industry standards. Conduct thorough assessments to determine feasibility, efficiency, and scalability, providing valuable insights for decision-making. Lead a team of technical analysts or evaluators, overseeing project deliverables and ensuring high-quality outcomes. Continuously identify opportunities to refine the evaluation process, enhancing accuracy and efficiency for improved project success.

PROJECTS

Website Performance Optimization
Technologies Used: HTML, CSS, JavaScript, Google Analytics

- Audited website speed and optimized loading time by 40% using image compression and minified scripts.
- Integrated Google Analytics to track user engagement and improve UX/UI design.
- Implemented responsive design, increasing mobile traffic by 25%.

Website with Login & CMS
Technologies: React.js, Node.js, Express.js, MongoDB, JWT Authentication

- Developed a full-stack web application with a secure login system using JWT authentication.
- Created a Content Management System (CMS) for admins to add, edit, and delete content dynamically.
- Implemented a RESTful API with Express.js and MongoDB for efficient data handling.
- Designed a responsive UI with React.js and CSS for a seamless user experience.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology
Cavite State University
2018 – 2023

Computer Technician
Imus Computer College
2008 – 2010

Foundations: Data, Data, Everywhere
Google
Credential ID 19Z6533E9Q1R
February 2025

Ask Questions to Make Data-Driven Decisions
Google
Credential ID QY3WO6C4CVDA
February 2025

Prepare Data for Exploration
Google
Credential ID ELX7UFO2DGDG
Issued Feb 2025

Process Data from Dirty to Clean
Google
Credential ID 0D7QCX9NUGU1
Issued Feb 2025

TECHNICAL SKILLS

HTML	JavaScript
Research Skills	JQuery
Front End Development	MySQL
Back-End Development	Node.Js
Cascading Style Sheets	ReactJS
Enterprise Software	Adobe
Content Management	Git
